HINTS AND TIPS

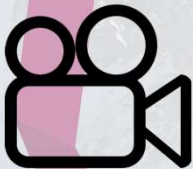

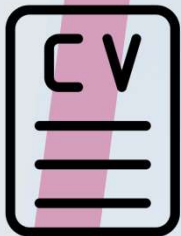

SKI VERTIGO

01252 365495

To work a season with us we believe you not only need the relevant experience, but you must have a great personality too.

A CV can't show us all of this which is why a video application gives you the opportunity to really show off why you are perfect for the role.

Below are some small suggestions that could help you with your video application

- If you are using a phone, turn it horizontal to film

- Make sure the location (or locations) you film yourself in has lots of natural light
- If you are using music, make sure we can still hear you
- Your video is 1 of 1000's that we will view - make sure yours is one we will remember
- Do not exceed 2 minutes

Have fun and good luck!

Find us on social media and show us what you are getting up to!
