

## Travelling to the Alps by car

### By Road

As an alternative to flights, you could drive down to the Alps. We recommend Eurotunnel FlexiPlus service which gives you greater flexibility, avoids boarding queues and gives you access to an exclusive lounge where you can stock up on complimentary drinks, snacks and newspapers. If you are driving do bear in mind that you will also need to budget for fuel, tolls, breakdown insurance, and snow chains and any overnight stops.

### Directions

Please use these instructions with a good quality road map. Please check your route carefully before you travel. Sat Navs and web based route planners such as Google Maps may select routes that are not suitable in winter.

Leave the N90 at Moutiers following signs for SAINT-MARTIN-DE-BELLEVILLE, LES MÉNUIRES and VAL THORENS. The road climbs steadily past St Martin De Belleville and then goes through Les Menuires. As you pass through Les Menuires follow signs for Reberty (also known as Reberty 2000). You will wind past the development of Reberty 1850 on a series of tight bends. Around 1.2 miles from the centre of Les Menuires you will see Reberty 2000 on your right.

If you reach Chalet 2000 you have gone too far. Follow the road round to the right (there is a one way system in place!). Chalet Katie is the third building on the left (the front doors are at the rear of the building as you approach from this direction). Chalet Eva is in front of you as you round the corner past Chalet Katie (enter the chalet via the garage doors in front of you). On arrival make yourselves known to your chalet hosts. They will let you know where you can park.
